Projects

Weather App   12/2024
https://github.com/Vikramprajapati/weather_app
A simple and clean Flutter Weather App that displays real-time weather details based on the selected city. This app integrates with a weather API to fetch live data and showcases essential weather information.

Calculator App   12/2024
https://github.com/Vikramprajapati/flutter_calculator
A simple calculator app built using Flutter. This project helped me practice UI design, state management, and handling user input in Flutter.

Login skip using shared preference   1/2025
https://github.com/Vikramprajapati/login_screen_skip_sharedPref
This Flutter app demonstrates how to skip the login screen after the first successful login using SharedPreferences. Once the user logs in, their status is saved, and they are automatically redirected to the home screen on the next app launch.
